+91-6261877133 ◇ Madhya Pradesh, Dewas

manvendrasinghrathodofficial@gmail.com ◇ [linkedin.com](https://www.linkedin.com) ◇ [Portfolio](#)

OBJECTIVE

Dynamic and goal-oriented B.Tech student with a strong foundation in Computer Science. Experienced in Java and JavaScript programming, specializing in front-end development with React.js . Proven ability in problem-solving and effective communication. Eager to contribute technical expertise to innovative projects and collaborate in dynamic environments. .

SKILLS

Languages	Java and Javascript
Frameworks/Libraries	React.js , Redux ,Tailwind CSS and Material-UI / GSAP
Database	Mysql
Tools	VS Code , Figma and GitHub

PROJECTS

Crypto Tracker. Introducing CryptoTracker: a real-time cryptocurrency monitoring tool that lets you compare and analyze top 100 cryptocurrencies. With features like detailed graphs, price metrics, and a customizable watchlist, it offers a responsive design using React JS, Material UI, and Chart.js. Integrated with CoinGecko API for live data, and enhanced by Framer Motion animations for a dynamic experience. - ([Github](#)) / ([Try it here](#))

Weirdos. Developed a responsive NFT Collection website using React JS, featuring Home, About, Showcase, Team, and FAQ sections. Enhanced with GSAP for smooth animations, react-confetti for vibrant effects, and SVG animations for interactivity. The site is optimized with code-splitting and lazy loading for speed, and is set to integrate Solidity for secure, decentralized NFT features. - ([Github](#)) / ([Try it here](#))

Jobboard. Developed a dynamic job portal using React and Vite, featuring a stunning UI with Tailwind CSS. Implemented state and props management, and connected the app to Firebase for real-time updates. Created a dynamic job listing system with search and filtering capabilities, and stored job data in Firebase Firestore for seamless data synchronization. - ([Github](#)) / ([Try it here](#))

EDUCATION

Mahakal Institute of Technology , Bachelor of Computer Science	2020 - 2024
Sardana Public School , XII	2019 - 2020
Holy Trinity School , X	2017 - 2018

EXPERIENCE

Web Development Intern	10 Jan 2022 - 30 Mar 2022
Aksoft	India, Dewas

- I developed strong skills in HTML, CSS, and JavaScript for creating interactive to web pages.
- The hands-on training provided practical experience in building responsive websites and designing modern web solutions.

Freelance Frontend Engineer	1 Feb 2024 - 30 Mar 2024
Evvara labs	India, Remote

- I refined my React.js skills and built interactive, responsive user interfaces while working on Evvara Labs' website.
- The role provided valuable experience in teamwork, project management, and modern development practices, enhancing both technical and collaborative skills.
